Chapter Seven

In time mankind will see the wisdom of Gods ways, there are many ways the God has showed mankind what will be, what is, and what was, God is telling mankind things that at earlier times would not have been able to understand, just as in the future things will happen that man at this time would not be able to understand. God is telling mankind these things for a reason, with God all things have a reason, but with mankind most reasons, don't exist. We have talked a little about Jesus Christ, and the Romans, we have talked some about the Romans, did you know of the Hebrons, the Hebrons were a group of Jews who lived on the outskirts of Tiburon, Tiburon was a community in eastern Israel, the Hebrons enjoyed grace with God, they shared their ideas with God, and sought his wisdom, God was happy with this many men have sought Gods wisdom, but few have earned it. The Hebrons existed with all as a peace loving tribe, they understood what God wanted from Mankind, that they existed with others, without the need for violence, and hate, but just as all happens with peace loving people they were destroyed by a band of rebels, these rebels sought what the Hebrons had, their money, their homes, their food, unwilling to accept what the Hebrons gave them, they wanted it all. This is a lesson to mankind, for mankind like the rebels, wants everything anyone has, not happy with what they have been given, they insist on taking everything. Mankind must learn to accept what it is given, not what it wants, but what God has given them. Mankind continues to aim for the stars, seeking what others have, offering a peace branch to many, but giving nothing in return, God will not allow this to happen, for one simple reason, mankind has not earned grace with their God. God has showed them what will be, if they continue on this same course for discovery. Mankind must earn the right to seek others, not by destroying what it was given, God is telling you to look in other directions, look among yourselves discover who, and what you are before seeking out others, others who already know who they are. Mankind will not be permitted to find, and discover new worlds, not until it has solved it's own problems within themselves. God has told you not to do this, mankind will be shown what happens when you deny God. God will have what God wants, it is not up to mankind to take away from God what he wants, for it is God who will take away from mankind what it has not earned. Look to the stars, and see what will be, but if mankind aims for the stars, it will not be. God has told mankind not to do this, mankind has been told not to do this, mankind must listen to what it is being told. Destruction only begets more destructions, planets, begets more planets, God begets to no one.

Mankind seeks to discover new worlds, this discover will happen, then all will be lost, for

what God has told you, must be heard. People have sought the stars for eternity, looking to the heavens to find God, God is not in the stars, for God is with each of you, he is in everything that is, or will be. God sent you his son Jesus Christ, we have spoken of Jesus Christ before, it is important that man understand that Jesus Christ was not a God, he was the son of God, just as all men, and women are the children of God, this is not to say that Jesus Christ was not important to the development of mankind, for with Jesus Christ mankind learned there was a God, that he did exist, that he does exist. Mankind needs something to symbolize God, for by choosing Jesus Christ on the cross this symbolized God, but what many have done is to replace God with Jesus Christ, God wants mankind to understand that Jesus Christ was his son, as all are his children, but that Jesus Christ was a messenger of Gods, that he was sent to earth to show mankind that God does exist, that he is with you all at any time. Jesus Christ understood this, the Apostles changed Jesus words to reflect what they perceived to be, Jesus Christ spoke of his father God, he spoke of what God is offering mankind, what God wants from mankind, what will be for mankind, not what has been written by the Apostles about Jesus Christ, Jesus Christ never said you cannot know my father without knowing me, he never said honor me before my father, he never said to my own self be true. Jesus spoke of his father as you all should speak of your father, for the love your father has shown you, you should respect what your father request, honor your father, show your father your love for him. God understands what is happening in the world, that mankind feels the need to discover new of everything, but what God is asking mankind is to show their God respect, and honor, what God is asking of all mankind. Mankind will recognize the day when Jesus Christ comes to earth, for Jesus Christ is on earth today, this doe not mean all humanity will know when he returns, for what God has said will be, for what others have said will not. Listen to what your God is telling you, don't question what he has said, listed to the worlds, repeat the words, do as the words have told you to do, do not seek the stars, do note seek the heavens for this is not to be.
